EXPERTISE

MISSION & VISION

CTI System & Solutions vision is to be a trusted leader in the fire safety technology sector empowering safer environments through smart systems, continuous innovation, and a proactive approach to fire risk management.

We envision a future where every building, facility, and community is equipped with cutting-edge fire protection systems, ensuring peace of mind and resilience against fire hazards.

Innovation & Expertise

At CTI System Solution Company, we pride ourselves on being at the forefront of fire safety innovation and expertise. With a deep understanding of industry standards and emerging technologies, we design and implement intelligent, integrated fire protection systems tailored to the unique needs of each client. Our team of certified professionals brings decades of combined experience in fire detection, suppression, and monitoring systems. We stay ahead of the curve by incorporating cutting-edge technologies—from smart sensors and IoT-enabled devices to AI-driven analytics—ensuring fast response times, system

FIRE FIGHTING & ALARM SYSTEMS

Fire Alarm System

At CTI System Solution Company, we specialize in providing advanced fire alarm systems designed to deliver fast, accurate detection and reliable alerting in the event of a fire. Our solutions are built on cutting-edge technology, industry best practices, and a commitment to protecting lives, property, and critical infrastructure.

Fire Fighting & Fire Hydrant System

CTI System Solution Company is proud to be one of Pakistan's most trusted providers of Fire Fighting and Fire Hydrant System solutions, delivering unmatched expertise, high-performance systems, and end-to-end services that ensure safety and compliance.

We specialize in the design, supply, installation, testing, and maintenance of complete fire fighting and hydrant systems for residential, commercial, and industrial sectors. Our team of certified engineers and technicians work closely with clients to deliver solutions that are tailored, cost-effective, and fully compliant with national and international fire safety standards.

Fire Suppression System

CTI System Solution Company is a trusted name in providing FM-200 Fire Suppression System solutions throughout Pakistan. We specialize in the supply, installation, testing, and commissioning of high-performance FM-200 systems, offering fast and reliable protection for sensitive and high-value environments. FM-200 is a clean, non-conductive, and environmentally friendly fire suppression agent ideal.

Vehicle Suppression System

CTI System Solution Company is a leading provider of Vehicle Fire Suppression Systems in Pakistan, offering complete supply, installation, and maintenance services for all types of commercial, industrial, and specialized vehicles.

Our Vehicle Fire Suppression Systems are designed to automatically detect and extinguish fires in critical engine and machinery compartments, minimizing damage, downtime, and risk to operators.

Kitchen Suppression System

CTI System Solution Company is proud to be one of Pakistan's most trusted providers of Fire Fighting and Fire Hydrant System solutions, delivering unmatched expertise, high-performance systems, and end-to-end services that ensure safety and compliance.

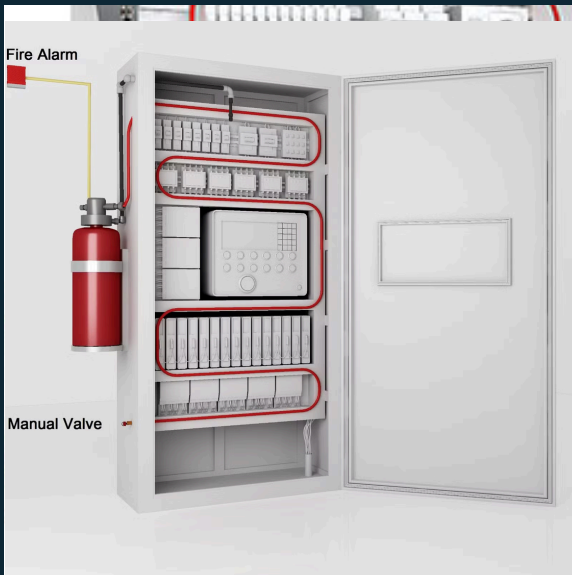

We specialize in the design, supply, installation, testing, and maintenance of complete fire fighting and hydrant systems for residential, commercial, and industrial sectors. Our team of certified engineers and technicians work closely with clients to deliver solutions that are tailored, cost-effective, and fully compliant with national and international fire safety standards.

Fire Suppression System for Electric Cabinet

CTI System Solution Company offers state-of-the-art Automatic Fire Suppression Systems for Electric Cabinets, providing advanced protection for sensitive electrical and electronic equipment. These systems are specially designed to detect and suppress fires directly at the source, minimizing damage and ensuring the continuity of operations.

Electric cabinets, control panels, and server racks are highly vulnerable to overheating, short circuits, and electrical faults that can lead to fires. Our automatic suppression systems are compact, fast-acting, and fully self-contained, ideal for critical environments such as

FIRE PUMPS, SPRINKLER & FIRE DOOR

UL-FM Listed Fire Pumps

CTI System Solution Company proudly stands as a reliable manufacturer and supplier of premium-quality fire pumps in Pakistan. Our fire pumps are engineered for performance, durability, and compliance with international fire safety standards, making them an essential component in any fire protection system.

Designed to deliver powerful and consistent water flow during emergency situations, our fire pumps are used in a wide range of applications, including:

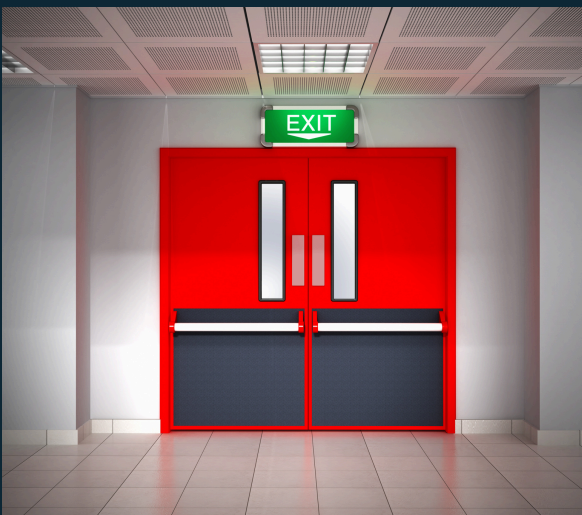

Fire Sprinkler System

CTI System Solution Company is a trusted name in delivering comprehensive Fire Sprinkler System solutions throughout Pakistan. We provide design, supply, installation, testing, and maintenance of fire sprinkler systems that ensure reliable and automatic fire protection for a wide range of facilities.

Our systems are engineered to detect and control fires at an early stage, minimizing damage, protecting lives, and ensuring compliance with international fire safety standards.

We serve all major sectors including:

- Commercial & Residential Buildings
- Industrial Plants & Warehouses
- Hospitals, Hotels & Malls
- Educational Institutions & Government Facilities

Fire Rated Doors

CTI System Solution Company is a leading manufacturer and supplier of high-quality Fire Rated Doors in Pakistan, designed to provide critical protection in the event of a fire. Our fire-rated doors are built to withstand extreme heat and prevent the spread of fire and smoke, ensuring safe evacuation routes and enhanced structural safety.

We offer a wide range of customizable fire-rated doors that meet international standards such as UL, BS, and NFPA, making them ideal for:

WALKING THROUGH and TURN STYLE GATES

FLAP BARRIER AND TURN STYLE GATE

CTI System Solution Company is a trusted manufacturer and supplier of advanced Flap Barrier and Turnstile Gate systems across Pakistan. We provide secure, efficient, and modern access control solutions designed to manage the flow of people while maintaining high levels of security and convenience.

Our products are ideal for:

- Office Buildings & Corporate Campuses
- Government Facilities & Airports
- Educational Institutions
- Metro Stations & Transport Hubs
- Commercial Complexes, Malls & Stadiums

Walk Through Security Metal Detector Gate

CTI System Solution Company is a reliable supplier of high-performance Walk-Through Metal Detector Gates across Pakistan, offering advanced security screening solutions for public and private sectors. Our metal detectors are designed to ensure safe, efficient, and non-intrusive screening of individuals in high-traffic and high-security areas.

We provide state-of-the-art detection systems equipped with multi-zone technology and sensitivity adjustment to accurately detect metallic objects such as weapons, tools, or contraband.

PARKING BARRIER SYSTEM SOLUTIONS

CTI System Solution Company provides high-quality Parking Barrier Systems designed for effective and secure vehicle access control across Pakistan. Our solutions are ideal for managing entry and exit in both public and private parking areas, ensuring smooth traffic flow, enhanced security, and efficient space utilization.

As a trusted name in the security and automation industry, CTI delivers durable, smart, and reliable barrier gate systems.

Door ACCESS Control System

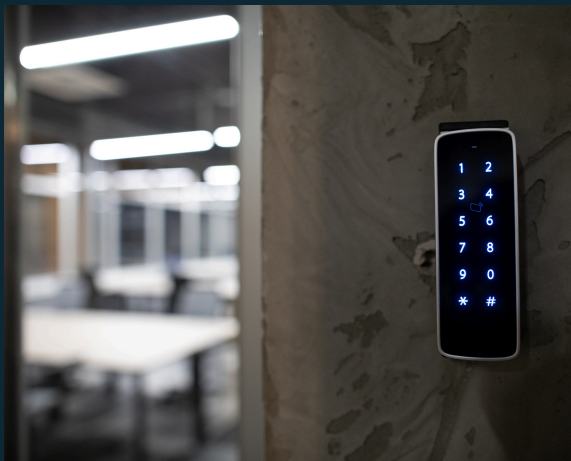

Door ACCESS CONTROL

CTI System Solution Company offers advanced and reliable Door Access Control Systems designed to enhance security, convenience, and control across all types of facilities in Pakistan. Our solutions help organizations manage and monitor who enters and exits their premises—ensuring only authorized individuals have access.

We provide complete design, supply, installation, and integration services for small offices to large-scale enterprise environments.

Centralized Door ACCESS CONTROL

CTI System Solution Company provides robust and intelligent Centralized Door Access Control Systems designed to offer organizations complete control over facility access from a single platform. Our centralized systems are ideal for multi-door, multi-location environments, enabling efficient security management and real-time monitoring across an entire building or campus.

With advanced technology and user-friendly software, our solutions ensure that only authorized personnel can access specific areas—enhancing security, operational efficiency, and accountability.

Centralized Emergency Exit Light

CTI System Solution Company is a leading supplier and installer of Centralized Emergency Exit Light Systems across Pakistan, delivering high-quality, compliant, and reliable solutions for safe evacuation during power outages or fire emergencies. Our systems are designed to illuminate escape routes and clearly indicate emergency exits, ensuring safety and visibility when it's needed most.

We specialize in central battery systems that power multiple emergency lights from a single control unit, offering streamlined maintenance, real-time monitoring, and consistent performance across large buildings and complexes.
